

Custom interior flooring by Elite Crete Systems with truly unlimited color, texture, design and pattern options, provide the ideal choice for custom homes, retail stores, restaurants, museums, shopping malls and other high traffic, interior applications where durable yet unique flooring is required.

These flooring systems rival the look and feel of other flooring options such as tile, hardwood, terrazzo, stone and marble but offer increased customization to match surroundings, design and color, at a more competitive, budget-minded price.

With patterns ranging from various stone, brick, tile, abstract shapes and even wood planking, Elite Crete Systems is quickly becoming the standard for residential or commercial flooring. With millions of square feet already installed in shopping malls, retail stores, public schools and elegant custom homes, there is probably an installation near you.
